

Jobifai

Visual identity - calm automation partner

Core idea

The mark preserves the existing product metaphor: a role/target anchor, a curved search and evaluation journey, and a terminal check for a confident application action.

Jobifai

Your calm application partner.

Mark rationale

- Anchor circle = role/target discovered.
- Curved path = search, evaluation and application pipeline.
- Check = suitable action completed with confidence.
- Rounded stroke language stays human and calm, not technical or aggressive.

Color + usage

Web-app matched palette

Core palette

	Primary accent	#7B6CF5	oklch(0.616 0.198 283.9)
	Accent highlight	#8B7CF8	oklch(0.658 0.178 285.9)
	Light-theme accent	#5B4FD9	oklch(0.522 0.203 280.6)
	Dark background	#171821	oklch(0.212 0.018 279.8)
	Dark surface	#22232F	oklch(0.261 0.022 281.0)
	Light background	#F8F9FC	oklch(0.982 0.004 271.4)

Clear space + minimum size

Clear space: at least 1x anchor-circle diameter around mark or lockup.

Digital minimum: 16 px mark; 96 px horizontal lockup.

Print minimum: 5 mm mark height.

Incorrect usage

- × Do not stretch, rotate or skew.
- × Do not turn the check green or add semantic colors to the logo.
- × Do not add neon/rainbow gradients, glow or drop shadows.
- × Do not rename the lockup to JobifAI, Jobif AI or JOBIFAI.
- × Do not substitute robot, brain, terminal or briefcase imagery.

Asset system

Production export map

Maskable app icon

Important geometry remains inside center 80%.

Use the full-bleed indigo background for Android maskable and Apple home-screen icons. Keep the wordmark out of 192px/512px app icons.
